

A pixelated, black-and-white representation of a lowercase cursive letter 'a'. The letter is formed by a single continuous stroke that starts at the top right, loops around to the left, and then curves back to the right to finish at the bottom right.

A pixelated, black-and-white representation of a lowercase cursive letter 'l'. It consists of a single vertical stroke that starts with a small horizontal hook at the top left and ends with a horizontal base at the bottom.

A pixelated, black-and-white representation of an equals sign. It is composed of two parallel horizontal lines of equal length, centered vertically relative to each other.

A pixelated, black-and-white representation of two lowercase cursive letters: 'o' and '2'. The 'o' is formed by a single stroke that starts at the top, loops around to the left, and then curves back to the right. The '2' is formed by a single stroke that starts at the top right, loops around to the left, and then curves back to the right to finish at the bottom right.
