| Contributor | SNT Received | Praises Received |
|---|---|---|
| yenda | 3,651 | 26 |
| jakubgs.eth | 3,054 | 26 |
| andrey.dev | 3,043 | 29 |
| Jonny Z | 3,021 | 30 |
| Hester | 2,755 | 27 |

# Janitor Update
## V1 Progress

status

# Core

| Research | Specification | Implementation |
|----------|---------------|----------------|

**ETA:** End of August for v1

**Progress/changes since last Town Hall**:
Beta 0.13.2
- Released on iOS; v1 breaking changes announced

v1
- 64 bit issue fixed; upgraded to React Native 0.60
- All status-go & status-protocol-go issues completed
- Security reports in private repo fixed
- Biometric login issue still open—changes proposed
- Backlog tagged 'v1 release' on GitHub; high level overview available here
  - ENS verification is WIP in both go & react
- Timeline to come

**Team Members**: Rachel, Andrey, Vitaliy, Eric, Pedro, Andrea, Adam, DmitryS, Anna, Nastya, Tetiana, Serhii

# Security and Infrastructure Updates

status

# Security Updates

- **Security Audit Kickoff Today**
  - Performed by **Trail of Bits**: https://www.trailofbits.com/
  - Manual and automated testing and review of codebase
  - Focus on high-risk elements: protocol, storage, keys
  - Will last a whole month of October
  - Weekly summary reports on already found issues
  - Fixing of issues as they appear to keep up with the audit
- **Details:** https://discuss.status.im/t/v1-audit-information

# Infrastructure Updates

- **Deployments**
  - Implemented Status module for MatterBridge with help from Adam & Andrea
  - Most of Status and Nimbus channels are now bridged with Gitter and Discord
  - Deployed and stress tested an instance of Fathom for site analytics
  - Deployed and instance of SourcreCred for contributions analytics
    - https://sourcecred.status.im/timeline/@status-im/
  - Deployed a BitWarden instance which was retired in favor of cloud hosted
- **Builds**
  - Re-enabled Status desktop builds in preparation for #8630
  - Implemented building of per-architecture APKs for releases (smaller size)
  - Upgraded Go to `1.12` in preparation for upgrade to Geth `1.9.5`
- **Fixes**
  - Refactored sidebar on https://status.im/docs/ for better nesting
  - Fixed retired `dev-docs.status.im` showing up in Google search results
  - Fixed calendar invites ending in spam due to unfinished DKIM verification
  - Regained control over `status-im-jenkins`(`status-im-bot`) GitHub user

# Keycard

## Bug fixing for v1
💪 Kudos to Chu, Dmitry and Sergey

## Github Hackathon
@bakaoh for a Keycard emulator [tool](#)
@ligi for further integration of Keycard within [walleth](#)

## Building a Payment Network
- Using a scalable L2 technology
- Fullfills Teller Network needs
- Where Keycard is integrated
    - Easy to onboard Keycard tap payments (Status as a point of sales)
    - Fraud limitation built-in mechanisms

# Q&A

status

# #status-townhall-questions

**Q1:** What is Status' plan after V1 launch?
