Town Hall #44

Pops Update

People Ops

Hiring

- Looking for your referrals/suggestions for:
- Mobile UI Engineers - 2 month contract
 - Technical Marketing Manager
 - Technical Copywriter
 - Security Engineer

https://status.im/contribute/open_positions.html for full details.

Offsite Follow-up

Always looking to improve, so please fill out [feedback survey](#) - takes 1 min

Leaderboard #Kudos

Shout out 🎉 to our top five:

Contributor	SNT Received	Praises Received
yenda	3,651	26
jakubgs.eth	3,054	26
andrey.dev	3,043	29
Jonny Z	3,021	30
Hester	2,755	27

Janitor Update

V1 Progress

Core

ETA: End of August for v1

Progress/changes since last Town Hall:

Beta 0.13.2

- Released on iOS; [v1 breaking changes announced](#)
- v1
- 64 bit issue fixed; upgraded to React Native 0.60
- All status-go & status-protocol-go issues completed
- Security reports in private repo fixed
- Biometric login issue still open—[changes proposed](#)
- Backlog tagged 'v1 release' on GitHub; [high level overview available here](#)
 - ENS verification is WIP in both go & react
- Timeline to come

Team Members: Rachel, Andrey, Vitaliy, Eric, Pedro, Andrea, Adam, DmitryS, Anna, Nastya, Tetiana, Serhii

Finance Update

Token Economics

Security and Infrastructure Updates

Security Updates

- **Security Audit Kickoff Today**
 - Performed by **Trail of Bits**: <https://www.trailofbits.com/>
 - Manual and automated testing and review of codebase
 - Focus on high-risk elements: protocol, storage, keys
 - Will last a whole month of October
 - Weekly summary reports on already found issues
 - Fixing of issues as they appear to keep up with the audit
- **Details:** <https://discuss.status.im/t/v1-audit-information>

Infrastructure Updates

- **Deployments**

- Implemented Status module for MatterBridge with help from Adam & Andrea
- Most of Status and Nimbus channels are now bridged with Gitter and Discord
- Deployed and stress tested an instance of Fathom for site analytics
- Deployed an instance of SourceCred for contributions analytics
 - <https://sourcecred.status.im/timeline/@status-im/>
- Deployed a BitWarden instance which was retired in favor of cloud hosted

- **Builds**

- Re-enabled Status desktop builds in preparation for [#8630](#)
- Implemented building of per-architecture APKs for releases (smaller size)
- Upgraded Go to 1.12 in preparation for upgrade to Geth 1.9.5

- **Fixes**

- Refactored sidebar on <https://status.im/docs/> for better nesting
- Fixed retired `dev-docs.status.im` showing up in Google search results
- Fixed calendar invites ending in spam due to unfinished DKIM verification
- Regained control over `status-im-jenkins(status-im-bot)` GitHub user

Keycard update

Keycard

Bug fixing for v1

👊 Kudos to Chu, Dmitry and Sergey

Github Hackathon

@bakaoh for a Keycard emulator [tool](#)

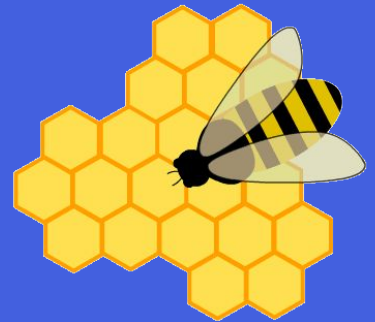

@ligi for further integration of Keycard within [walleth](#)

Building a Payment Network

- Using a scalable L2 technology
- Fullfills Teller Network needs
- Where Keycard is integrated
 - Easy to onboard Keycard tap payments (Status as a point of sales)
 - Fraud limitation built-in mechanisms

Swarm Updates

Status Teller Network

Research

Specification

Implementation

Progress/changes since last Town Hall:

- Detailed documentation/spec
- Internal Audit
- Formal testing
- Redesign + changes

Team Lead: Iuri Matias

Team Members:

Jonathan Rainville

Richard Ramos

Ricardo Schmidt
